AGRO EARLY ORDER CATALOG

Program Highlights

The Ride Agro program was designed to bring maximum value to the dollars spent for agronomic purchases. More than simply trying to save money the Ride Agro program provides access to technologies that can reduce expenses while improving player experience at your course. In addition, the Ride Agro Program provides access to a wide range of the Golf Industry's leading brands including Dow, FMC, Branch Creek, Andersons and Lebanon.

SynaTek will be providing the following services in support of the Ride Agro program:

- Inventory Management

- Customer Support Services
- Early Order Program Support

Early Order Program Parameters

Participating in the Ride Agro Early Order Program could not be easier. All that we require is that you make a commitment to purchase by December 8, 2017, take delivery by March 31, 2018 and remit payment by July 1, 2018.

Order By: December 8, 2017

Deliver By: March 31, 2018

Pay By: July 1, 2018

Pay It Your Way

Standard payment terms for the Ride Agro Early Order Program are July 1, 2018. Early order purchase commitments of at least \$15,000 will provide eligibility for The Pay It Your Way Program. Pay It Your Way was designed to provide flexibility based upon the cash flow realities of your golf course. Pay It Your Way provides the following options for payment:

Standard: Payment in full due by July 1, 2018

Early Pay: Payment by December 15, 2017 will receive a discount of 6%

Payment by January 31, 2018 will receive a discount of 5%

Payment by March 31, 2018 will receive a discount of 3%

Extended Pay: Payment beginning March 15, 2018 and extending through September 15, 2018. Each payment will represent 1/7th of your early order purchase commitment.

Make It Your Way

Early Order purchase commitments of at least \$15,000 will provide eligibility to The Make It Your Way Program. More than just a distributor our partner SynaTek is a basic manufacturer of granular and liquid fertilizers. The Make It Your Way Program allows course operators to make sure that they are paying for the nutrients their turf needs as opposed to what a distributor happens to have in stock.

Purchase Minimums Per Formulation Are as Follows:

Granular Fertilizer – 5 Tons

Combination Granular Fertilizer – 22 Tons

Liquid Fertilizer – 5 Tons (1,000 Gallons)

Partnership Points

The golf industry needs technologies that can propel the sport into the future. The challenge becomes how do we invest in tomorrow while we pay for today? The answer to this pivotal question is Partnership Points. Partnership Points were designed to turn daily purchases into lasting value.

SynaTek's Partnership Points Program allows Ride Agro participants to utilize their purchases to access technologies offered through Ecotronics. Ecotronics has technologies that range from labor tracking software to control panel technology that allow your course to manage water and nutrient applications through irrigation. Please contact your SynaTek relationship manager for a list of Ecotronics technology products available for your course.

A minimum Early Order purchase commitment of \$15,000 is required for participants to be eligible to earn Partnership Points from SynaTek.

Control Product Swap

Participants in the 2017 Ride Agro Early Order Program will be able to make purchase commitments from qualifying manufacturers without needing to fully predict disease and insect pressures for the coming season. The Ride Agro Control Product Swap will allow your course to exchange up to 25% of your control product purchases (excluding control product on fertilizer) until July 15, 2018 once you have a stronger gauge of your course's particular needs. The exchange privileges are offered on a one-time basis and must be exchanged for products with an equal or greater price compared to the products being swapped. For example, if you made a \$25,000 purchase commitment by December 8, 2017 you would be able to swap up to \$6,250 of eligible products on a one-time basis by July 15, 2018 with other eligible products.

Price Protection

Participants in the 2017 Ride Agro Early Order Program who spend at least \$50,000 will be able to make purchase commitments without the budgetary stress and strain of trying to predict the future of product pricing. The Ride Agro Price Protection Program will ensure that the product price your course receives in early order through December 8, 2017 will be the lowest offered price through September 15, 2018. If prices decline you will not only receive the lower price for any subsequent purchases, but you will also be credited the difference for any products previously purchased. For example, if you committed to purchase one case of Iprodione by December 8, 2017 at \$234 and then on July 8, 2018 the case price dropped to \$200 SynaTek would automatically rebate you the \$34 difference as a result of the change in price. Furthermore, if prices increase you will not see any change in your pricing structure. For example, if you committed to purchase one case of Iprodione by December 8, 2017 and then on July 8, 2018 the price increased to \$290 per case you would continue to receive the \$234 per case price offered to you during the early order commitment period.

In-Season Free Freight Minimum

Your level of participation in the Ride Agro Early Order Program will determine the purchase minimum required to receive free freight in 2018. For example, if your course commits to purchasing \$25,000 during the early order period offered through December 8, 2017 then your course will not receive any delivery charges for any orders of at least \$1,000 that are shipped in 2018.

Placing Your Order

Orders for the Ride Agro Early Order Program can be submitted through with any of the following methods:

- Order form which once completed can be faxed or emailed to your SynaTek relationship manager.
- Over the phone with your Synatek relationship manager.
- Through a purchase order submitted to your SynaTek relationship manager

Once an order is received you will receive confirmation of the following:

- Product ordered
- Quantity
- Price
- Payment Terms
- Estimated Delivery Date
- Summary of all eligible program benefits such as Partnership Points, Control Product Swap, etc.

General Information

- Failure to make payment within terms will void any Partnership Points that were earned from the purchase.
- To receive the tier benefits outlined in the Early Order Program Parameters section all shipments of early order purchases must be delivered in a single shipment.
- Certain products may not be eligible for sale into all states. Please contact your SynaTek relationship manager with any questions regarding product registration.
- SynaTek receives the right to exchange any post patent control product purchases for the same label with a different manufacturer that was listed at the time of order.
