Bulk Liquid and Turf Nutrition

2019 FALL FORWARD

Participating in SynaTek's 2019 Fall Forward Program could not be easier. Simply make a commitment to purchase by December 13, 2019, take delivery by the dates outlined below and remit payment by June 8, 2020.

Synatek Rewards Program

Participants in the 2019 Fall Forward Program will be able to benefit from rebates of up to 10% from purchase commitments made by December 13, 2019. Agency products offered by Syngenta, SePro and FMC are not eligible for SynaTek Rewards. Please refer to the end user programs offered by each of these manufacturers for a complete detail of eligible rebates.

Rebate Tiers as follows:

\$2,500 - \$4,999	2%
\$5,000 - \$19,999	4%
\$20,000 - \$39,999	6%
\$40,000 - \$59,999	8%
\$60,000 - Above	10%

For example, if a \$20,000 purchase commitment was made from qualifying manufacturers by December 13, 2019 you would receive a \$1,200 rebate based upon a rewards level of 6%. Rebates will be paid out by August 31, 2019 provided that shipment of the product takes place by the dates outlined below and payment is received by June 8, 2020. In the event that the product is not shipped or paid for within the terms of the Fall Forward Program then all rebates will be forfeited.

Extended Delivery & Payment Terms

Participants in the 2019 Fall Forward Program will benefit from extended delivery and payment terms. All purchase commitments received by December 13, 2019 will be able to defer delivery until the dates outlined below with payment for the product not being due until June 8, 2020.

Delivery Deadlines

Packaged: March 20, 2020

Granular: March 20, 2020

Liquid: July 31, 2020

Early Pay Discounts

The following payment discounts are available for customer's who elect to pay for their early order commitment prior to the June 8, 2020 due date.

6% if paid by December 13, 2019

3% if paid by March 31, 2020

2% if paid by April 30, 2020

Product Swap

Participants in the 2019 Fall Forward Program will be able to make purchase commitments from qualifying manufacturers without needing to fully predict disease and insect pressures for the coming season. The Fall Forward Product Swap will allow you to exchange up to 25% of your control product purchases (excluding control product on fertilizer) until July 10, 2020 once you have a stronger gauge of your course's particular needs. The exchange privileges are offered on a one time basis and must be exchanged for products with an equal or greater price compared to the products being exchanged. For example, if you made a \$10,000 purchase commitment by December 13, 2019 for eligible products you would be able to exchange up to \$2,500 of those products on a one-time basis by July 10, 2020 with a minimum of \$2,500 in other eligible products.

Price Guarantee

Participants in the 2019 Fall Forward Program will be able to make purchase commitments on all control products (excluding control product on fertilizer) without the budgetary stress and strain of trying to predict the future of product pricing. The Fall Forward Price Guarantee will ensure that the product price you receive in the commitment period offered through December 13, 2019 will be the lowest offered price through September 10, 2020. If prices decline you will not only receive the lower price for any subsequent purchases, but you will also be credited the difference for any products previously purchased. For example, if you committed to purchase one case of Iprodione by December 13, 2019 at \$256.00 and then on July 6, 2020 the case price dropped to \$200.00 we would automatically rebate you the \$56.00 difference as a result of the change in price. Furthermore, if prices increase you will not see any change in your pricing structure. For example, if you committed to purchase one case of Iprodione by December 13, 2019 at \$256.00 and then on July 6, 2020 the price increased to \$290.00 per case you would continue to receive the \$256.00 per case price offered to you during the commitment period. **Excludes all MLP and Agency pricing.**

Defendor® specialty herbicide Matched with Dimension® specialty herbicide or Dimension on fertilizer	\$80.00	quart

Purchase the equivalent Dimension specialty herbicide on fertilizer, Dimension Ultra 40WP, or Dimension 2EW equal to or greater than 0.25 pounds a.i. per acre (1 pint per acre or higher), equal to the number of treated acres of Defendor specialty herbicide purchased. Rebate is paid on Defendor purchases only. In order to receive this additional rebate amount, you must submit both your Defendor and Dimension 2EW purchases at the same time.

(i.e. 1 quart of Defendor equals 8 acres treated at 4oz. per acre. Therefore, if you were buying a 50 lb bag of fertilizer with a Dimension load rate of 0.21% a.i., you would need to purchase at least 19 bags per 1 quart of Defendor).

One pint of Dimension equals 0.25 pounds a.i. per acre. Dimension 2EW product sizes included are the 0.5 gal, 2.5 gal, and 30 gal. Dimension 2EW bulk or the Dimension + Defendor Value Pak are not included in the quantities for the matching, nor included in this additional rebate payout.

TERMS AND CONDITIONS (GO TO WEBSITE FOR COMPLETE LIST OF TERMS AND CONDITIONS):

1. Fertilizer/granule product minimums of 1 ton before the bonus multiplier kicks in.
2. Fertilizer/granule products are combined and not counted as individual products for the bonus multiplier. **EXAMPLE:** Confront® TR and Confront 3 specialty herbicides are considered one product. They would not count as two separate products.
3. Pallet rebates are only paid on full pallet purchases.
4. Any rebates due will be paid in May 2020 and December 2020.
5. Qualifying products must be invoiced during the defined purchase period of October 1, 2019 – September 30, 2020.
6. You must submit your Rebate Form online. You can upload your invoices, if required, or mail them along with a copy of your completed submission to the address below. **Invoices must be uploaded or mailed with a postmark date of no later than October 31, 2020:**

7. If your distributor is not reporting EDI, invoices, with invoice numbers (#s), are required to verify the purchase of all participating products. This rapid-acting, postemergent, contact herbicide provides quick knockdown as a tank-mix partner in combination with other herbicides. Get improved efficacy compared to a broadleaf herbicide alone. Nothing controls silyery thread moss on greens and tees quite like QuickSilver™ T&O herbicide.

This novel combination of sulfentazone and carfentrazone increases tuber mortality within 24 hours and reduces future outbreaks of yellow nutsedge, green kyllinga and 45 other weeds. Plus, with no known resistance, you get proven control of ALS-resistant sedge.

The Echelon™ Herbicide Performance Assurance Program for Bermudagrass will change how you look at your spring preemergence herbicide program. When applied according to the label directions for preemergence applications, Echelon herbicide will provide at least 100 days of preemergence control of crabgrass, goosegrass, yellow nutsedge and green kyllinga. If it fails, FPHC will provide an appropriate product to control any remaining weeds at no cost to you.

Fame SC Fungicide delivers excellent results on brown patch, fairy ring and Pythium root dysfunction with plant health benefits. Its unique chemical structure provides a "halo of protection" for your turf! This means quicker uptake, even distribution and 35-minute rainfastness. All these features make Fame SC Fungicide a standout solution among strobilurin fungicides.

Triple Crown® T&O herbicide is a HerbiCare Use Pesticide (UPP). Control defined as at least 90% control for at least 100 days from the initial Echelon herbicide application. UPP = Day After Normal Treatment. Fungicide efficacy is not included in this Performance Assurance Program. Echelon herbicide will not control P&O, redroot dogwood, sweetgum or sedge.
